

Information for students in winter semester 2020/21

Dear students,

Because of the ongoing coronavirus/covid situation, the language courses in winter semester 2020/21 are taking place under special conditions. The teachers of the language center will do all they can to carry out the planned courses digitally until the end of the year and then in physical classrooms afterward. Please have patience when there are some difficulties at the beginning. Digital teaching is a creative experiment for all of us, and it is one that you will be a part of.

Your active cooperation is part of the success of digital teaching. Please mind the following points:

1. To participate in the course, you need a desktop computer, notebook, laptop, or tablet with internet connection that allows you to regularly access the Moodle platform. You'll need a webcam with microphone to participate in video conferences.
2. Video conferences are an integral part of the online courses. Please participate regularly.
3. Please turn on your video cameras during video conferences. This is the only way to enable linguistic interaction in authentic conditions.
4. You successfully complete the course when you regularly participate in video conferences, submit your work before deadlines, and pass the test at the end of the course. Generally, successful course completion requires that you take part in at least 75% of the lessons.
5. The test at the end of the course will very likely be carried out as a Moodle test and video conference. Your teachers may decide on possible alternatives after consulting with the relevant language department. 50% of your final grade is based on your performance during the course and 50% on a final course test.

Despite these unfavorable conditions, we wish you an interesting and successful semester.

All the best!

EUV Language Center
