

Ślubice und Frankfurt (Oder)
21. to 22. June 2024

UNITHEA 2024 _visible

Students of the European University Viadrina invite the people of Ślubice and Frankfurt (Oder) to the 24th International Theater Festival, which will take place on June 21-22, 2024. UNITHEA is a festival designed, organized and carried out by students. Over its twenty-three-year history it has developed into an important cultural event of Frankfurt (Oder) and Ślubice, which expresses the spirit of the cities. The students who organize the festival have acquired the theoretical knowledge of cultural event management and apply it in practice this year. International profile of the participants, festival venues located in two countries and the original program gives UNITHEA festival its name – the Festival of Diversity.

Digitization has allowed an easy access to the world's knowledge and its history. Still, our past and present are often not discussed, visions for a different future are often unheard. UNITHEA wishes to create a space for all, who have been left out by the spotlight.

UNITHEA makes _visible

We are of the opinion, that current performances on stage don't represent our diverse society. Up until now, systemic causes of discrimination have not been made visible. Ideas for change have been largely ignored and unheard. UNITHEA wishes to make a contribution by filling this empty space and make ideas visible.

The festival events are taking place in established theater locations (Kleist Forum and SMOK), as well as on sites which are typically not associated with theater performances. Visitors will have the opportunity to enjoy traditional and modern theater forms, object and puppet theater, dance and performance.
